Evidence-based education is an approach to all aspects of education—from policy-making to classroom practice—where that is based on randomized trials, as with the testing of new drugs in evidence-based medicine.

Evidence-based education - Wikipedia

Introduction "The great idea of constructive type theory is that there is no distinction between programs and proofs... Theorems are types (specifications), and proofs are programs" (Robert Harper)

A Self-Learning, Modern Computer Science Curriculum

Changing contexts and intents. The internet itself is a changing context—we're right to worry about data flows, but we also have to worry about the context changing even when data doesn't flow.

Ideas - O'Reilly Media

In mathematics, a space is a set (sometimes called a universe) with some added structure. While modern mathematics uses many types of spaces, such as Euclidean spaces, linear spaces, topological spaces, Hilbert spaces, or probability spaces, it does not define the notion of "space" itself.
