This lesson is organized around the big idea Classification, Heredity, and Evolution for a high-school biology course. The design of the lesson is general, however, the 5E model can be easily incorporated.

Classification of Domains and Kingdoms

The world of germs and microbes has received much attention in recent years—and for good reason. We frequently hear the term microbe associated with organisms such as Escherichia coli, Salmonella, anthrax bacteria, antibiotic-resistant tuberculosis, MRSA, HIV, malaria, Stachybotrys, and other microscopic creatures.
