Algebra and Geometry Resources (RPDP)

These designs are made using a series of constructions with a compass and straightedge. The artistic project includes a series of three designs with increasing difficulty level. These are best if students have seen at least one or two basic constructions before, such as bisecting a line segment.

Geometry Construction Art by Math Giraffe | Teachers Pay

This has been my students' favorite project this year. The whole point is to have students use the geometric terms that they've learned in a creative way. You can use it as a way for students to learn and practice new vocabulary, or as a review project, or even as a culminating project after a unit ...

Contents

Pope Benedict XVI dramatically underscored the importance of St. Augustine of Hippo (354-430) recently. In a series of general audiences dedicated to the Church fathers, Benedict devoted one or two audiences to luminaries such as St. Justin Martyr, St. Basil, and St. Jerome, while dedicating five to Augustine.
