The Internet protocol suite is the conceptual model and set of communications protocols used in the Internet and similar computer networks. It is commonly known as TCP/IP because the foundational protocols in the suite are the Transmission Control Protocol (TCP) and the Internet Protocol (IP).

Internet protocol suite - Wikipedia

The objective of the course is to provide a comprehensive but necessarily high level overview across industry standard technology and platforms, illuminating the technology and its specific cyber governance, risk and assurance challenges without technically challenging the learner to hands-on labs.
